

**Chemistry Content Standards:**

The kinetic molecular theory describes the motion of atoms and molecules and explains the properties of gases.

Standard 4g: Students know the kinetic theory of gases relates the absolute temperature of a gas to the average kinetic energy of its molecules or atoms.

**Stamp:**                      **Mixed Gas Laws 1-4**

**Classwork:**                ***Gas Laws Practice Problems 14.2***  
*Students will record work and answers on their own paper noting the division between the two assignments*

***Mixed Gas Laws, 5-8***

Students will complete this assignment review on their own paper

**Lab:**                         Hot Air Balloons

**Home Work:**            None
