

**Chemistry Content Standards:**

The kinetic molecular theory describes the motion of atoms and molecules and explains the properties of gases.

Standard 4g: Students know the kinetic theory of gases relates the absolute temperature of a gas to the average kinetic energy of its molecules or atoms.

**Stamp HWK:**            **Gas Laws Worksheet 11-15**

**Classwork:**            **Gas Laws Review (Homework, take picture)**

***Balloon Blast Off***

**Rubric:**                **Students will determine group rubric depending on flight pattern**

- Blast off balloon
- Chase and record data
  - No private property
  - No climbing trees or buildings
  - Stay out of streets
  - Allow time to return to class before end of period
  - Document, document, document

**Homework: None**
