

**Chemistry Content Standards:**

The kinetic molecular theory describes the motion of atoms and molecules and explains the properties of gases.

- 16.2.1 Solve Problems involving the molarity of a solution
- 16.2.2 Describe the effect of dilution on the total moles of solute in solution
- 16.2.3 Define percent by volume and percent by mass solutions

**Stamp**

**Int. Graphics**  
**Molarity Practice**  
**Molarity Calculations**

**Classwork:**

**Open Note Practice Exam: (Graded)**

Students will use data from practice sheet and notebooks to answer questions about solubilities

**Video;**

Bill Nye Buoyancy

**HWK:**

**None**
