

Chemistry Content Standards:

The kinetic molecular theory describes the motion of atoms and molecules and explains the properties of gases.

Standard 4g: Students know the kinetic theory of gases relates the absolute temperature of a gas to the average kinetic energy of its molecules or atoms.

Stamp HWK: **Heating Curve Work Sheet**

LAB: **Lab # 153 Crushing Can Page 60 NB**
 Gas Laws
 Students will follow directions for observing gas behavior in the lab
 A complete lab write will be required by the end of the lab session

Classwork: **Complete Vocabulary Quiz and Unit 5 Gases and Kinetic Molecular Theory**
Test

Homework: **None**
